

Hello,

I am writing to show support for the Connecticut Libraries Budget.

I am a regular member of the Young Adult Library Roundtable South, a roundtable that is part of the Connecticut Library Consortium. It is an opportunity for Young Adult Librarian to get together to talk and learn from one another.

I have also attended Continuing Education programs and classes at the Middletown Service Center. I have attended programs on incorporating technology into teen programs, summer reading programs, and computer education programs.

I know many smaller libraries use the Service Center's to borrow many copies of the same book for book clubs, because they are unable to afford to buy all the copies needed.

Thank you,

Heather
